

**ECONAD**

# JELLYFISH BOOMS

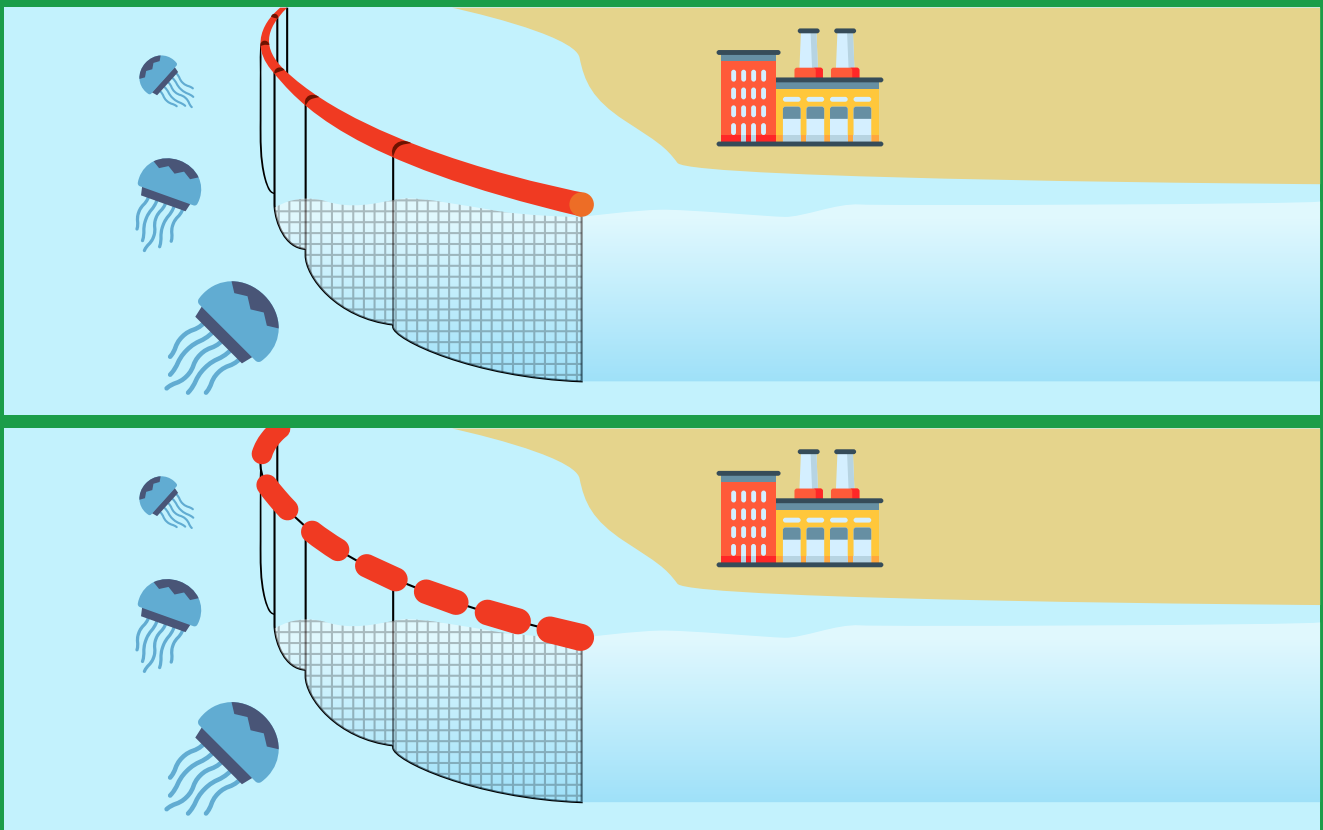

ECONAD is a leading ecosystem protection company and has been developing and implementing environmental technologies for about 30 years, aimed at protecting the natural environment from oil pollution.

The benefits of the Meduza net have been recognized in various areas, but primarily in fishing and protecting the beach line.

Since recently problems with the invasion of jellyfish on the coast have become more common, devices that can protect the population from these unpleasant encounters are in great demand.

## SPECIFICATIONS OF MEDUZA BARRIER NETWORK:

- + Delays jellyfish and algae
- + Does not have any negative effect on marine life
- + Reduces damage caused by poisonous jellyfish (including material damage)
- + High strength and damage resistance
- + Easy to assemble
