

JELLYFISH BOOMS

ECONAD is a leading company in ecosystem protection, with nearly 30 years of experience in developing and implementing environmental technologies aimed at safeguarding the natural environment from oil pollution.

The Meduza Net has proven its benefits across various applications, particularly in fishing and beachline protection. Recently, the increasing occurrence of jellyfish invasions along coastlines has made devices that protect the public from these unpleasant encounters highly sought after.

SPECIFICATIONS OF THE MEDUZA BARRIER NETWORK:

- + Prevents jellyfish and algae from passing through
- + Does not have any negative impact on marine life
- + Reduces damage caused by poisonous jellyfish (including material damage)
- + High strength and resistance to damage
- + Easy to assemble
